TAMMANY AND THE NEW-JERSEY BRIDGE.

MAYOR GILROY HAS WITHDRAWN HIS OPPOSI-TION TO THE SCHEME, BUT CONTROLLER

MYERS HAS NOT. In speaking of the published statement that the Tammany Hall authorities had withdrawn their opposition to the proposed bridge over the Hudson River at Seventieth-st., known as the scheme of the New-York and New-Jorsey Bridge Company, Mayor Gilroy said yesterday: "It is a fact that I have withdrawn my opposition to the plan. The amendments to the bill will place the location of the approaches in the control of the local authorities and do away with the objectionable features in the original bill. I do not care to place myself in opposition to the building of bridges, for no one can say that they do not confer great benefits upon the people of the city. When the promoters of the bridge over the Hudson consented to the adoption of the amendments my opposition coased."

Controller Myers was not inclined to view the mat-

ter in so docile a spirit. "I have not withdrawn my opposition to the Hudson River bridge scheme." he said. "Indeed, no one has asked me to do so. I am certainly not opposed to building a bridge over the Hudson at the proper place and with proper approaches, for they are as necessary as the bridge it-self. But I am opposed to inflicting upon the city a self. But I am opposed to instead of relifereds under the guise of approaches. My opposition to this outrageous scheme, instead of being withdrawn or lessened, is intensified. I do not like the way in which the men who secured the charter from the New-York Legislature went about it. Who would have supposed that under the innocent name of 'ap-proaches' a gigantic railway scheme was covered up. calculated to ruin some of the finest sections of the

"By placing the control of the location of the approaches in the hands of the 'city nuthorities' I sup-pose is meant the Board of Aldermen and the Sinking Fund Commission. Surely they cannot mean to ex-clude the Sinking Fund Commissioners from a voice on so important a matter, and if I am not mistaker the consent of the sinking Fund Commissioners necessary under the provisions of the Consolidation

HER DREAM OF RESCUE REALIZED.

ALL HANDS ON A WATERLOGGED SCHOONER BROUGHT TO THIS PORT-THE VISION OF THE CAPTAIN'S WIFE.

The ship Carleton, Captain Amesbury, arrived here yesterday from San Francisco. She had on board Captain W. D. Dent, Mrs. Dent and the crew of the abandoned schooner Mincola. The Mincola was from Fernandina, Fla., for Denarara, with a load of lumber. She sailed from Fernandina on December 28 ber. She sailed from Fernandina on December 2 and immediately struck heavy weather. On January 1, at 8 o'clock in the morning, as the Mineola was running closereefed before the wind, the mate re-ported to Captain Dent that the laboring of the ves sel in the heavy seas had started her seams, and she was leaking. The pumps were manned and the crev worked them at the rate of 1,000 strokes an hour, but were unable to gain on the water. The schooner sank rapidly, and finally her decks were awash. The

sank rapidly, and finally her decks were awash. The man still labored at the pumps, and while the captain steered the schooner, his wife, perched on the top of the deckhouse, kept a lookout for a rescuing sail.

For three days the people on the schooner had no food. They had water, but it was brackish and mixed with sea water. The misery began on January 2, the cabin and hold being entirely filled with water by that time. On the night of January 4 Mrs. Dent, watching for a sail, fell asleep from exhaustion. She dreamed that she saw a big ship coming to the rescue. At daylight she awoke, and there was the realisation of her dream. The first thing she saw was the setton of her dream. The first thing she saw was the big ship Carleton, a towering mass of canvas, bearing down on the waterlogged schooner. The only thing which Mrs. Deht saved from the wreck was her Mother's Bible, which she clung to on the storm-swept deck all through the three borrible days and

nights.

The abandoped wreck of the Mineola was reported by a steamer which put into Bermuda soon after Captain Dent and his crew were taken on board the

Captain Dent and his crew were taken on board the Carleton. A tug went out from Bermuda and brought the wateriogged vessel into port. The Mincola was owned by J. Willard Smith, of Windsor, N. S., and was built in 1890.

MRS. HARRIS VISITS ASBURY PARK.

Asbury Park, Jan. 23 (Special).—Mrs. F. MacCready Harris, the mother of Carlyle W. Harris, arrived in town early this morning, and tried assiduously to procure evidence in favor of her son all day. She visited a number of well-known cottagers in this place and Ocean Grove, vainly trying to secure evidence that would establish the fact that Helen Potts dence that would establish the fact that Helen Potts was addicted to the morphine habit. She called upon the young woman who was the companion of Miss Potts during the early days of her courtship with Carlyle W. Harris, and a painful meeting ensued. The mother of the young woman finally was completed to request her peremptory departure from the house. Mrs. Harris next visited the cottage of George Potts, and there another distressing scene took place. She endeavored in many ways to reach Mrs. Potts.

Mrs. Harris then endeavored to reach some of Helen Potts's young women friends in vain. At times she became hysterleal in her efforts, and in sheer despair returned to the Olin-st. cettage in Ocean Grove, where she expected to meet Miss Potts's companion. The house was closed against her. Mrs. Harrls left here this afternoon for New-York without accomplishing any part of her intssion.

Of the wheat reported, 1,000,000 bushels have since been burned in St. Louis. The sales of wheat options on the Produce Exchange yesterday were only 180,000 bushels, and the general temper of the market was weak. The opening prices indicated an advance of 'sa's cent, as a result of foreign and Wall Street buying firmer cables, a decrease of 350,000 bushels in the weekly statement of New-York stocks and the news of the destruction at St. Louis of 1,000,000 bushels by fire on Sunday. Realizing sales then began, however, and a decline of 'ga'l cent ensued, helped by a small increase shown by the visible supply statement. The market closed steady at a net decline of 'sa's cent for the day. February options shold at 79'sa'79's. THE TRADE IN CHICAGO.

Chicago, Jan. 23 (Special)—Lard and ribs yesterday touched the tiplop price so far on this advance. May pork got to \$19.40; May lard (ouched \$11.02½; May ribs. \$10.10. The close showed hardly any reaction. The last on May pork was \$19.35; on May lard, \$11.07; on May ribs, \$10.07. It was still more a matter of news from the yards than of pit speculation. There was a good-sired scalping business, but really no important high-rolling. Instead of the 27,000 heap predicted there were only 22,000. Prices were 10 cents higher. Heavy grades seld freely at 8 cents, the first trade really at that figure. The estimate on Tuesday's hogs was only 21,000. Traders thought they detected considerable buying by Swift, by Curlany and by Dunham. The quality of the hogs was very poor, as well as the number very small. The pit was still talking that Among the other gossip was that increase for Jahuar and Among the other gossip was the increase for Jahuar and the housing of an elevator in St. It closed weak on the news that he had been advanced 5 cents a gallon. Wheat opened firm, help 1,00,000 bushels. It closed weak on the news that he senate had agreed to vote on the Anti-Option bill, almory 31. May sold from 79 cents to 784, and to 784, 4878s.
